

MILITARY RIFLE SPECIFICATIONS

1. All firearms used in this event must be original or reproduction military muzzle loading rifles unaltered from their historical appearance and design.
2. All lock types are permitted in this category.
3. Bore size permitted in this match is .577 inch (12.5mm) and over.
4. Military rifle sights must remain basically as fitted to the rifle. A permanent re-location (left or right only) of sights may be carried out to facilitate alignment with the bore. The front sight may be altered in height to obtain a more accurate point of aim but it must remain similar in shape to the original.
5. All sights and sight alterations will be metallic.
6. Only black paint may be applied to the sights.
7. Non issue rear sights and/or sun shades are not permitted.
8. Non issue front sights and sight hoods are not permitted.
9. Sights will not be capable of windage adjustment.
